

**Advancing sustainable solutions for fiber bonding and non woven applications in the field of consumer products**

*Doug Thompson, Global Marketing Director Consumer Materials*

Synthomer is strategically invested in the development of solutions for a broad range of fiber bonding applications in order to maximise environmental as well as product performance whilst ensuring total cost in use value. Synthomer will present an overview of our corporate ESG initiatives to deliver customer value in addition to those actions specifically within Consumer Materials business aimed at innovation to enhance performance as well as environmental factors.
