

Huntsman Polyurethanes ECS 2025 Product presentation Abstract

Title:

New POLYRESYST® S4010C coating system, combining performance with circular content*.

Presenter:

Stijn Roekaerts, Technical Service Team Leader for Adhesives and Coatings at Huntsman Polyurethanes

Abstract:

Huntsman will present a recently developed coating system which contains up to 20% circular content*. The development of POLYRESYST® S4010C system reinforces Huntsman's passion for innovation and sustainability. A prime example of customer-centric innovation is based on a combination of bio-based and recycled materials – with no trade-offs in functionality. Developed for protective coating applications, POLYRESYST® S4010C system offers improved elongation compared with existing standard systems without compromising tensile strength**.

Footnotes

* Circular content: bio-based and/or recycled based content

**Results were generated in controlled lab conditions according to testing standard comparing POLYRESYST® S4010C and POLYRESYST® S4010. Data variations due to varying processing or ambient conditions cannot be excluded. These properties are not part of the product specifications

About Huntsman:

Huntsman Corporation is a publicly traded global manufacturer and marketer of differentiated and specialty chemicals with 2023 revenues of approximately \$6 billion. Our chemical products number in the thousands and are sold worldwide to manufacturers serving a broad and diverse range of consumer and industrial end markets. We operate more than 60 manufacturing, R&D and operations facilities in approximately 25 countries and employ approximately 6,000 associates within our continuing operations.
