

Introducing COATINO® Notify: Stay Ahead with Real-Time Regulatory Updates

Never miss a regulatory change or further development of your favorite products again. Join us at the European Coatings Show 2025 to experience **COATINO® Notify**, the latest addition to the COATINO® formulation network by Evonik Coating Additives. The new service allows you to create a personalized watch list and receive timely email notifications about critical changes to the products you choose.

In its initial release, COATINO® Notify focuses on essential regulatory topics such as Global Chemical Inventories, Toy Regulations, Consumer Product Regulations, Diverse Regulations, Volatile and Semi-Volatile Organic Compounds or Substance Restrictions. Future versions of COATINO® Notify will include notifications on further topics like new guiding formulations, available lifecycle data or new technical trainings, making it an essential tool for staying compliant and competitive in the coatings industry.

Don't miss this opportunity to enhance your formulation process and manage product data with COATINO® Notify.

Presenter: Gritt Bettcher, Global Head of Regulatory Guidance, Evonik Operations GmbH
