

**NEW BIO-BASED HEUR POLYURETHANE THICKENERS: COAPUR™ 3020 BB & COAPUR™ 817 BB**

**Loïc CHAILLOUX**

Technical Assistance Manager  
Arkema Rheology & Specialty Additives

Arkema Rheology & Specialty Additives offers new bio-based solutions in the field of polyurethane thickeners for waterborne coatings and adhesives. The characteristics and key benefits of two new sustainable products will be highlighted in comparison to market standard polyurethane thickeners. Those two Newtonian (High-Shear) and balanced (Mid-Shear) thickeners are new sustainable tools to develop bio-based decorative and industrial paints and coatings.
