

A quick and easy surface coating that keeps bacteria, biofilm and dirt away

Thema: antibakterielle Beschichtungen

Abstrakt:

Flux Polymer's easy-to-clean antibacterial surface coating prevents the adhesion of bacteria, biofilm and other dirt such as oils and fats. Our simple coating process ensures a quick chemical bond to the surface. Easy-to-clean, non-biocidal and without changing the look or feel. Our innovative technology is suitable for many applications.
