

ECS 2023 Product Presentation Abstract

Session 1 Date: 28.03.2023 Time: 15:10-15:30pm
Location: Booth details: Hall 5, Stand no. 5-243
Topic: Broad range of naturally derived polymers to support customers sustainability goals
Speaker: Klairie Gounaridi, IFF Klairie.Gounaridi@iff.com
Discover IFF's broad range of environmentally friendly solutions to address paint and printing ink formulation and manufacturing challenges. IFF's portfolio of thickening, film-forming, binding and stabilizing agents, such as cellulosic and seaweed derived polymers, provides an opportunity to improve the sustainability profile of your products. Do more good with IFF's green chemistry.
